DECISION NOTICE

Application (full) for planning permission.

Town and Country Planning Act 1990

Reference:	4/02321/19/FUL
Proposal:	Loft conversion and first floor extension to existing property and attached three bed dwelling and a two bed detached dwelling with parking and landscaping (amended scheme)
Address:	2 Glenview Road Hemel Hempstead HP1 1TE

Your application received 20th September 2019 and registered on 15th January 2020 has been **GRANTED** subject to the conditions overleaf.

Assistant Director
Planning, Development and Regeneration
Dacorum Borough Council

Condition(s) and Reason(s):

1. The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with the requirements of Section 91 (1) of the Town and Country Planning Act 1990, as amended by Section 51 (1) of the Planning and Compulsory Purchase Act 2004.

2. No development (excluding demolition/ground investigations) shall take place until details of the materials to be used in the construction of the external surfaces of the development hereby permitted have been submitted and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details. Please do not send materials to the Council offices. Materials should be kept on site and arrangements made with the Planning Officer for inspection.

Reason: To ensure satisfactory appearance to the development and to safeguard the visual character of the area in accordance with Policies CS11 and CS12 of the Dacorum Borough Core Strategy (2013).

3. No construction of the superstructure shall take place until full details of both hard and soft landscape works have been submitted to and approved in writing by the Local Planning Authority. These details shall include:
 - o all external hard surfaces within the site
 - o other surfacing materials
 - o means of enclosure
 - o mitigation tree planting for removed trees (including siting, species, size and maturity)
 - o soft landscape works including a planting scheme with the number, size, species and position of trees, plants and shrubs.

The planting must be carried out within one planting season of completing the development.

Any tree or shrub which forms part of the approved landscaping scheme which within a period of 5 years from planting fails to become established, becomes seriously damaged or diseased, dies or for any reason is removed shall be replaced in the next planting season by a tree or shrub of a similar species, size and maturity.

Reason: To improve the appearance of the development and its contribution to biodiversity and the local environment, as required by saved Policy 99 of the Dacorum Borough Local Plan (2004) and Policy CS12 (e) of the Dacorum Borough Council Core Strategy (2013).

4. Prior to the first use of the development hereby permitted the vehicular access shall be provided and thereafter retained at the position shown on the approved plan drawing number PL01 rev P. Arrangement shall be made for

surface water drainage to be intercepted and disposed of separately so that it does not discharge from or onto the highway carriageway.

Reason: To ensure satisfactory access into the site and avoid carriage of extraneous material or surface water from or onto the highway, in accordance with Core Strategy (2013) Policy CS8.

5. The development shall not be brought into use until the new access has been constructed to the current specification of the Highway Authority and to the Local Planning Authority's satisfaction.

Reason: In the interest of highway safety and amenity and to ensure the development makes adequate provision for on-site parking and manoeuvring of vehicles likely to be associated with its use, in accordance with Core Strategy (2013) Policy CS8.

6. The development shall be carried out in accordance with the Arboricultural Impact Assessment Method Statement & Tree Protection Plan (to BS:5837 2012) by Trevor Heaps Arboricultural Consultancy Ltd (dated 2nd August 2019) and the following approved drawing:

Drawing No: TH/A3/2072B/TPP (Tree Protection Plan)

Reason: In order to ensure that damage does not occur to trees during building operations in accordance with saved Policy 99 of the Dacorum Borough Local Plan (2004), Policy CS12 of the Dacorum Borough Core Strategy (2013) and Paragraph 170 of the National Planning Policy Framework (2019).

7. The development hereby permitted shall be carried out in accordance with the following approved plans/documents:

Drawing Number P-01 Rev P (Location & Site Plan)

Drawing Number P-02 Rev N (Floor Plans and Elevations)

Drawing Number P-03 Rev M (Street Elevations)

Drawing Number P-04 Rev M (Street Elevations and Site Sections)

Reason: For the avoidance of doubt and in the interests of proper planning.

Informatives:

1. Planning permission has been granted for this proposal. The Council acted pro-actively through early engagement with the applicant at the pre-application stage which lead to improvements to the scheme. The Council has therefore acted pro-actively in line with the requirements of the Framework (paragraph 38) and in accordance with the Town and Country Planning (Development Management Procedure) (England) (Amendment No. 2) Order 2015.
2. It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free

passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence. Further information is available via the website: <http://www.hertfordshire.gov.uk/services/transtreets/highways/> or by telephoning 0300 1234047.

3. It is an offence under section 148 of the Highways Act 1980 to deposit mud or other debris on the public highway, and section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available via the website <http://www.hertfordshire.gov.uk/services/transtreets/highways/> or by telephoning 0300 1234047
4. The applicant is advised that the storage of materials associated with the construction of this development should be provided within the site on land which is not public highway, and the use of such areas must not interfere with the public highway. If this is not possible, authorisation should be sought from the Highway Authority before construction works commence. Further information is available via the website <https://www.hertfordshire.gov.uk/services/highways-roads-andpavements/business-and-developer-information/business-anddeveloper-information.aspx>
5. The Highway Authority requires the alterations to or the construction of the vehicle crossovers to be undertaken such that the works are carried out to their specification and by a contractor who is authorised to work in the public highway. If any of the works associated with the construction of the access affects or requires the removal and/or the relocation of any equipment, apparatus or structures (e.g. street name plates, bus stop signs or shelters, statutory authority equipment etc.), the applicant will be required to bear the cost of such removal or alteration. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission and requirements. The applicant may need to apply to Highways (Telephone 0300 1234047) to arrange this, or use link:- <https://www.hertfordshire.gov.uk/droppedkerbs/>
6. In the event of bats or evidence of them being found, work must stop immediately and advice taken on how to proceed lawfully from an appropriately qualified and experienced Ecologist or Natural England.
7. Nesting birds are protected under Schedule 1 of the Wildlife and Countryside Act 1981.

Any vegetation clearance should be undertaken outside the nesting bird season (March to August inclusive) to protect breeding birds, their nests, eggs and young. If this is not practicable, a search of the area should be made no more than two days in advance of vegetation clearance by a competent

Ecologist and if active nests are found, works should stop until the birds have left the nest.

Any excavations left open overnight should be covered or have mammal ramps (reinforced plywood board >60cm wide set at an angle of no greater than 30 degrees to the base of the pit) to ensure that any animals that enter can safely escape. Any open pipework with an outside diameter of greater than 120mm must be covered at the end of each working day to prevent animals entering / becoming trapped.

8. To avoid killing or injuring of hedgehogs it is best practice for any brash piles to be cleared by hand. Any trenches on site should also be covered at night or have ramps to prevent and avoid hedgehogs being trapped during construction. It is also possible to provide enhancements for hedgehogs by making small holes within any boundary fencing. This allows foraging hedgehogs to be able to pass freely throughout a site.
9. The loss of any young or semi-mature trees should be compensated for with replacement trees on a one -for-one basis and the loss of any mature trees on a two-for-one basis. Ideally replacement trees should be native species, or fruit/nut trees, which will provide benefit for local wildlife.

Notes:

Appeal to the Planning Inspectorate

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

Before making any appeal you should first consider re-engaging with the local planning authority to discuss whether any changes to the proposal would make it more acceptable and likely to gain planning permission. A revised planning application could then be submitted.

Applicants should give consideration to the merits of the case, and whether there are strong grounds to contest the conditions or reasons for refusal of planning permission before submitting an appeal. Parties who pursue an appeal unreasonably without sound grounds for appeal may have an award of costs made against them.

Most planning appeals must be received within six months of the date on the decision notice. Where the appeal relates to an application for householder planning consent, and is to be determined via the fast track Householder Appeals Service, there are only 12 weeks to make the appeal. Appeals related to shop fronts must also be submitted within 12 weeks. Advertisement consent appeals must be submitted within 8 weeks. If an appeal on an application for planning permission is linked to enforcement action, there are only 28 days to make the appeal.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on telephone: 0303 444 5000.

Compensation

In certain circumstances, compensation may be claimed for the Borough Council if permission is refused, or granted subject to conditions, by the Secretary of State on appeal or on reference of an application to him. These circumstances are set out in Parts VI and VIII and related provisions of the Town and Country Planning Act 1990 and Part 1 Chapter III of the Planning (Listed Buildings and Conservation Areas) Act 1990.

Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission/consent to develop land, or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state, nor render the land capable of a reasonably beneficial use, by the carrying out of any development or works that have been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Borough Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI, Chapter I of the Town and Country Planning Act 1990 and Part I, Chapter III of the Planning (Listed Buildings and Conservation Areas) Act 1990.

Community Infrastructure Levy (CIL)

Dacorum Borough Council is a Charging Authority for Community Infrastructure Levy (CIL). It is your responsibility to clarify the CIL liability on your development. The Council will make every effort to ensure that notices for liable developments are dispatched as soon as possible following planning permission or consent being granted. If you do not receive a liability notice please contact the Council. It is important that all CIL matters be in place before any works begin on site – including any demolition. Further information regarding CIL, including FAQs, access to all CIL forms and information on appeals can be found on our website at www.dacorum.gov.uk/cil or you can contact us at CIL@dacorum.gov.uk.

Building Regulations

The proposed works may require building regulations approval. Please contact Dacorum Borough Council's Building Control Department who can help you through the process. They can be contacted via telephone (01442 228 587) or email (building.control@dacorum.gov.uk).

Creating New Addresses

If you are creating a new commercial or residential postal address, you must notify the Council's Address Management Team when works are commenced. This can be done [online](#) or by emailing address.management@dacorum.gov.uk.

Pollution Act

When arranging building works both the employer and the builder are responsible for works being undertaken within the hours of construction of the Control of Pollution Act 1974. Further information can be found on our [website](#).
